DMR CCTV CAMERA SYSTEM KITS

3 YEAR WARRANTY

When choosing a CCTV system for home or small office the DMR4 is ideal. This compact machine records 4 channels simultaneously. To playback video couldn't be easier. Search by time or event and press play. To backup insert the USB memory stick and transfer the video or high quality still images to your PC. If you connect the DMR to a network you can watch live and recorded video on PC using the FREE remote viewing software programme.

The system is supplied with DMR160Gb, Monitor, NIGHT VISION infrared colour cameras, suitable for internal or external wall or ceiling mounting, remote control, 1GB USB Memory transfer stick, 20m cables and low voltage power supply. Simple Instructions included.
